

## Contents

**Introduction** ..... 1

### First part

#### Special issue

“Investigating Complex Systems in Mathematics Education”.  
Francois Kalavasis, Sonia Kafoussi, Andreas Moutsios-Rentzos (Ed):

#### Brent Davis

«Complexity as a prompt to rethink school mathematics: From computation to modelling» ..... 7

#### Dimitris Chassapis

«Conceiving mathematics classrooms as activity systems» ..... 31

#### Konstantinos Nikolantonakis

«A Mathematical activity for the training of In-Service Primary school teachers using a Systemic Approach» ..... 47

#### Georgios Fessakis and Efstathia Kirodimou

«Improving the teachers' understanding of complex systems through dynamic systems modelling and problem solving» ..... 63

#### Andreas Moutsios-Rentzos and Francois Kalavasis

«Systemic approaches to the complexity in mathematics education research» ..... 97

### Second part

#### Katerina Kasimatis, Tasos Barkatsas and Vasilis Gialamas

«Values about mathematics learning: focusing on Greek high school students» ..... 123

#### Ann Luppi von Mehren

«Inspiration for Elementary Mathematics Descriptions from a “Heritage” Reading of “On the Nonexistent by Gorgias» ..... 145

#### Michael Voskoglou and Igor Subbotin

«An Application of Fuzzy Logic for Learning Mathematics According to the Bloom's Taxonomy» ..... 157

ISSN: 1791 - 6321

### International Journal for Mathematics in Education (*HMS i JME*)

The Hellenic Mathematical Society (HMS) decided to add this Journal, the seventh one, in the quite long list of its publications, covering all aspects of the mathematical experience. The primary mission of the HMS International Journal for Mathematics Education (*HMS i JME*) is to provide a forum for communicating novel ideas and research results in all areas of Mathematics Education with reference to all educational levels.

The proposals must be written almost exclusively in English but may be admitted, if necessary, also in French, in German or perhaps in Spanish.

The proposals could concern: research in didactics of mathematics, reports of new developments in mathematics curricula, integration of new technologies into mathematics education, network environments and focused learning populations, description of innovative experimental teaching approaches illustrating new ideas of general interest, trends in teachers' education, design of mathematical activities and educational materials, research results and new approaches for the learning of mathematics.

**Editor:** Prof. George Dimakos, University of Athens, President of the HMS

**Editor in chief:** Prof. Fragkiskos Kalavasis, Aegean University

#### Executive Committee

Ada Boufi, University of Athens

Dimitris Chasapis, University of Athens

Anna Chronaki University of Thessaly

Sonia Kafoussi, University of the Aegean, Coordinator of the I.S.C.

Eugenia Koleza, University of Patras

Chronis Kynigos, University of Athens

Dionyssios Lappas, University of Athens

Charalambos Lemonidis, University of West Macedonia

Despina Potari, University of Athens

Constantinos Tzanakis, University of Crete

Marianna Tzekaki, University of Thessaloniki

#### International Scientific Committee (ISC):

Peter Appelbaum (USA), Abraham Arcavi (Israel), Evelyne Barbin (France), Theodoros Chatzipantelis (Greece), Constantinos Christou (Cyprus), Carlos Coreia de Sa (Portugal), George Dimakos (Greece), Rijkje Dekker (Netherlands), Abdellah El Idrissi (Morocco), Athanasios Gagatsis (Cyprus), Uwe Gellert (DE), Vasilios Gialamas (Greece), Maria Kaldrimidou (Greece), Corneille Kazadi (Ca), Michalis Kourkoulos (Greece), Manfred Kronfellner (Austria), Colette Laborde (France), Ewa Lakoma (Poland), Elena Nardi (UK), Mogens Niss (Denmark), Iman Osta (Lebanon), Stavros Papastavridis (Greece), Vasilis Papantoniou (Greece), George Psycharis (Greece), Luis Radford (Canada), Sixto Romero (SP) Charalambos Sakonidis (Greece), Man-Keung Siu (China), Chrysanthi Skoumpourdi (Greece), Charoula Stathopoulou (Greece), Nada Stehlikova (Czech Republic), Juliana Szendrei (Hungary), Evaggelia Tressou (Greece), Michael Voskoglou (Greece), Theodosios Zachariadis (Greece).

**Subscription** The annual subscription rate is 15 euro.

**Address:** Hellenic Mathematical Society

### NOTES FOR AUTHORS

Authors are asked to submit their manuscript in electronic form via e-mail to: **info@hms.gr; kalabas@rhodes.aegean.gr; kafoussi@aegean.gr**, with the indication **for hms i jme**.

The first page should contain the author's e-mail address and keywords. Papers should be written in English but also, if necessary, in French, in German or in Spanish.

The format of the manuscript: Manuscripts must be written on A4 white paper, double spaced, with wide margins (3 cm), max 20 pages, Times New Roman 12pt. Each paper should be accompanied by an abstract of 100 to 150 words. References cited within text (author's name, year of publication) should be listed in alphabetical order. References should follow the APA style (<http://www.apastyle.org/pubmanual.html>).

The submitted papers are reviewed by two members of the International Scientific Committee (blind review). Two positive reviews are necessary for a paper to be accepted.

#### Authorship

Submission of a manuscript implies that the work described has not been published before; that it is not under consideration for publication elsewhere; that its publication has been approved by all coauthors. If the manuscript is accepted for publication the authors agree to automatically transfer the copyright to the publisher.
